CALL FOR APPLICATIONS FOR ANDRÁSSY VISITING FELLOWSHIPS

Andrassy University Budapest (AUB) was founded in 2001 and is the only entirely German-speaking university located outside the German-speaking countries. One part of our mission is to contribute to the development of an interdisciplinary research network in the the Danube region.

To further this aim we offer **Visiting Research Fellowships** sponsored by the **Pallas Athena Domus Educationis** Foundation (PADE) for applicants from the **V6+ countries** starting from 1 February 2020.

This call is addressed at renowned researchers who are planning **interdisciplinary and transdisciplinary research projects** with a focus on the Danube region within the scientific fields specified. Applications in the following thematic areas are especially encouraged:

- **Geopolitics, international relations**
- **European integration processes**
- **Political and/or economic transformation processes**
- **Regional cooperation**
- **Digitalisation, FinTech**

The research projects are expected to be incorporated in the publications of Andrassy University, and by the end of the grant period, the research results are to be summarised in a scientific publication (in English) of ca. 20 pages length. Research fellows are expected to participate in interdisciplinary cooperations and to contribute to events and projects of both AUB and PADE Foundation: a two-day-workshop for PhD students at AUB, at least 2 public lectures and contributions to the summer school at AUB.

For the implementation of the research projects, a gross grant of 250 000 HUF per month is provided. The duration of Andrassy Visiting Fellowships is limited to 6 months for the period between 1 February 2020 and 31 July 2020.

Requirements:

- PhD or a research project in an advanced stage leading to a PhD degree and a minimum of two years of certified research experience.

- The call for applications is open to researchers from the Visegrád and the West Balkan countries.

Please send your application including all required documents (résumé, copy of your diplomas, list of publications, as well as a synopsis of 3 to 5 pages presenting your research project including your methodological approach) **until 6 January 2020** as **one single pdf-file** to Prof. Ellen Bos, vice-rector for research and young talents (ellen.bos@andrassyuni.hu) and to the projects' service (projekte@andrassyuni.hu).

Information regarding the collection of personal data

By submitting their application files as requested in the call for applications to the email address projekte@andrassyuni.hu the applicants consent to the processing of the personal data included in the application material submitted. The purpose of the processing of personal data is the implementation of the application process at Andrassy University. The personal data are processed by Andrassy University as data controller until the termination of the application process. If the application process is not successful, the application file and the personal data of the applicant will be deleted without delay.

For further information about the processing of personal data in the application process and the protection of personal data, please check the University's [Data Protection Rules](#) or contact the [data protection officer](#).
